INTRODUCTION BY OUR CHAIR

Dear Colleagues,

On behalf of the Dutch Spine Society board, I would like to welcome you to our 21th Annual DSS Meeting on “Trauma of the spine”.

Developments in all aspects of spine care over the last few decades have revolutionized the treatment of patients with trauma of the spine and have spawned hope for improved outcomes following these often devastating injuries. But there is still an ongoing debate on how spinal trauma care should be organized. This meeting will cover this and other aspects of spinal trauma as we did in 2014 with special attention to fracture care in our daily spinal clinical practice. We will incorporate the knowledge and experiences of our Dutch experts as well as input of our international speaker.

We invite you to join us again in Rotterdam and hope our DSS Annual Meeting will be both instructive and enjoyable, with interesting dialogues and discussions.

Looking forward to meeting you all on November 10th,

Sincerely,

Eric Hoebink
Chair Dutch Spine Society

SCIENTIFIC PROGRAM ANNUAL
MEETING DUTCH SPINE SOCIETY
“TRAUMA OF THE SPINE”

November 10th 2022

Nederlandse Orthopaedische Vereniging
Nederlandse Vereniging voor Neurochirurgie

08.30	Registration and coffee				
08.55	Opening 21th annual meeting Dutch Spine Society	<i>Speaker : E. Hoebink</i>			
	Part I	Moderators: M. van Altena and J. Huybregts		Part III	Moderators: L. de Klerk and G. de Ruiter
